Complete the table below. Use English Units.

<i>Mars Facts and Figures</i>	
Discovered By	
Average Distance from Sun	
Closest Approach to Sun (Perihelion)	
Farthest From Sun (Aphelion)	
Diameter (Radius x 2)	
Circumference	
Density	
Surface Area	
Length of Day (Hours)	

Length of Year	
Eccentricity of Orbit*	
Minimum Surface Temperature	
Maximum Surface Temperature	
Atmosphere	

\*Eccentricity - the higher the number, the more oval shaped the orbit.
